Town Planning Commission

I am submitting this letter for consideration in view of the Public Hearing being held tonight. I would like to urge consideration to the changing of requirements for distances from property line so that I could build a storage shed on my property.

I am the owner of a house on the north end of the island (Chippewa Trail) and my property is 104 ft x 416' (.95 acres). I would like to build a shed approximately 12' x 16' at the rear of my property. As of now I cannot do it because I am required to have 50' from each lot line, which leaves me with 4 ft. I desperately need storage space for lawn and garden equipment, recreational equipment, etc.

Thank you for your consideration.
